

Inspection Report IR-2026-011 - Centrifugal Pump P-101A

Facility: Bharat Coastal Refinery (BCR), Unit 3 - Crude Charge. Date: 14-08-2026. Inspector: R. Menon (INSP-0412).

1. Scope

Routine condition monitoring of pump P-101A: vibration, seal condition and casing thickness.

2. Measurements

Parameter	Reading	Limit	Result
Vibration, drive end (mm/s RMS)	3.1	4.5	OK
Vibration, non-drive end (mm/s RMS)	2.8	4.5	OK
Casing wall thickness (mm)	9.6	8.0	OK
Seal leakage	None visible	-	OK

3. Findings

No defects found. Pump is fit for continued service. Next routine inspection due in 12 months.
